Letter from the Chief Secretary to the Government of His Highness the Maharaja of Mysore, No.Pol.450/L.S. 59-41-3, dated the 24th August 1942.

---:0:---

I am directed to state that the Sub Division Officer, Davangere and the District Survey Officer, Tumkur, jointly inspected the frontier boundary between Mysore and Madras at Ragi-masalvada and Singarahalli of Harapana halli Taluk and Kondajji village of Harihar Taluk and finding certain encroachments into the State boundary, have submitted a joint report, a copy of which is herewith enclosed. It will be seen therefrom that there is an overlapping of the boundaries in two places (marked A & E in the sketch) and that portions marked C, D and F in the sketch are gaps for which the Mysore village has no right. They have further reported that the overlapping is due to the fact that at the time of the survey of the Madras Village, which was conducted 20 years after the Mysore Survey, the Madras Surveyor, instead of correctly identifying and following the Mysore boundary marks as required by paragraph 15, Chapter II of the Madras Survey Manual, has inadvertently marked the true boundary of the Madras villages. I am to request that the Madras Government may be moved in the matter and the discrepancies noticed above may be kindly caused to be corrected

A copy of the sketch accompanies.

---:0:---

Joint report of the Inspection of the disputed boundary between Kondaji, Harihar Taluk and Ragimasalvada and Singara halli villages, Harapanahalli Taluk.

We inspected the locality on 23 rd April 1942 in company with the Taluk Amildar, Village Officers and other ryots. There is discrepancy in the Boundary line followed in the two villages of Kondajji belonging to Mysore and Ragimasalvada, Singarahalli (Madras villages). The superimposition of the two maps discloses the following defects:-

1. The two boundaries overlap in two cases marked 'A' and 'E' in the sketch; area of 'A' is 3 guntas and that of 'E' is 4 acres and 27 guntas.

2. 'C', 'D' and 'F' are gaps for which the Mysore village has no right whatsoever; the areas of these gaps are found to be 1 acre and 20 guntas in regard to 'C'; 3 acres and 20 guntas 'D', and 9 guntas 'F' respectively. This overlapping is due to the fact that, at the time of the survey of the Madras villages, the Madras Surveyor, instead of correctly identifying and following the Mysore Boundary marks, for the survey of the Madras Villages, which were surveyed first has indiscriminately marked the true boundary of the Madras villages. The rule in Madras Survey is contained in para 15, Chapter II of the Madras Survey Manual, which is quoted below for purpose of reference.

"When a portion of a boundary of a village which is being demarcated touches of foreign Province or State and such boundary has already been demarcated according to the Survey rules of that Province or State and accepted as correct by the Local Government, the marks already erected should be accepted and utilised for the new survey. If necessary, additional stones can be placed between such marks but the new stones must be on the true boundary".

Further it was observed during field inspection that an extent

of 15 guntas was unauthorisedly cultivated in S.No.138 by Lambani Narayani bin Ramji, a resident of Nagalapura. This extent is marked 'B' in the sketch. The Amildar has taken action in our presence to evict the encroacher from the unauthorised cultivation of this extent in S.No.138.

The Survey of Mysore village was done in the year 1863 and that of Madras Village 20 years later. It, therefore, stands to reason that the boundary marks put up by the Mysore Survey should have been closely followed at the time of the Survey of Madras village.

The Shanbhog of Kondajji village has put up a takarar takhta for the two bits 'B' and 'C'

The discrepancy in the two boundaries pointed out above will have to be set right so that there may be no overlapping by a reference to Madras authorities.

Sketch enclosed will clearly disclose the encroached and the gap portions in the case referred to above.

From

R. Galletti, Esq., I.C.S.,
Joint Secretary, Board of Revenue.

To

E.M.Gawne, Esq., C.I.E.,I.C.S., Commr. of Land Revenue, and Irrigation.

R e a d: From the Government, Endorsement No.3052 G/42-1 dated 22.9.42.
Board's Ref. 1. 2554/42-1 dated 30.9.1942.
Letter from I. M. Fraser, Esq., I.C.S., Collector of Bellary, D.Dis.No.3934/42 H1 dated 15.12.1942.

Survey - Frontier Boundary - Madras - Mysore - Discrepancy in the boundary between certain villages in the Mysore state and Bellary Dt. - Report - Submitted.

Your Ref.No. 1. 2554/42-1 dated 30.9.1942.

The Sub Collector Hospet who inspected the boundary in question jointly with the Officers of Mysore state, reports that the sketch received with the Board's Reference was of little or no use as it was not to scale. A revised sketch prepared, after consulting the Officers of the Mysore state., to agree with the actual state of things on ground is now enclosed. In this ~~actual-state-of-things-on-ground-is-now-enclosed.--In-this~~ revised sketch the portions which are claimed by the Mysore State and which have been included in the village maps on both sides are shown in blue and the portions which have been left out of Madras maps but actually belong to Madras are shown in Red. The Sub Collector Hospet after verifying the entire boundary line involved, reports that when the Madras boundary was surveyed, the Mysore boundary marks (Bands) which were in existence prior to the Madras Survey were over looked and the boundary lines taken from the easily identified boundary stones used by Madras Survey and that the boundary pointed out by the Mysore Officers' shown in red pencil line in the revised sketch is substantially accurate and recommends that it may be adopted The Mysore Survey being an earlier one it has to be accepted. The Frontier boundary between Ragi Masalvada and Singarahalli villages of Harapanahalli taluk, Bellary district and Kondaji village of Harihar taluk, Mysore state may be ordered to be revised in accordance with the Mysore Survey as shown in the revised sketch by the line drawn in red pencils.

As regards the encroachment referred to in the Board's Ref. the Sub Collector, Hospet reports that the encroachment was made by mistake and that the correct boundary has been pointed out to the Squattor who has agreed to keep his cultivation within bounds. The matter may therefore be dropped.

The revised sketch and a copy of the report of the Sub Collector Hospet are enclosed.

Copy of Hospet Sub Collector's letter L.Dis.No. 5403/42 dated 16.11.1942.

Survey - Frontier Boundary - Madras and Mysore - Discrepancies in the Boundary between certain villages in the Mysore State and Bellary District - Report Submitted.

I inspected the boundary in question

of 13.11.42. The L.R. Surveyor, Harihar and the Revenue Inspector, Cusba Holali - Harihar, and the village Officers of the adjoining Mysore village of Kondajji, were present. The Revenue Inspector, Teligi firka and the village officers and some ryots of Ragi-Masalvada and Singrahalli villages on the Harapanahalli border of Harapanahalli taluk were also present.

2. At the outset I have to remark that the sketch sent along with the reference, was of no use whatever for the purpose of inspection, and when I showed it to the Mysore Officers they admitted it was not to scale and that it had been prepared by an unqualified person. That the sketch is not to scale is clear from even a casual glance, for example in the portion marked F, the East- West measurements which are shown is 10 and 11 links respectively, are about a third of an inch in length while the North- South measurements which are over 2,100 links are shown to be of a length of 1-¾ inch. The areas shown in the map of the various over-lapping bits are also highly misleading, and true neither as to shape nor as to direction. I would also like to add that the Mysore Surveyors use a chain of 11 yards in length and not 22 yeards as in Madras.

3. The Mysore Officers produced a sketch taken by actual super-imposition of the village maps of Kondajji and those of Singarahalli and Ragi Masalvada. A copy of the sketch which I verified at the time to be quite accurate has been prepared under my instructions by the Surveyors on both sides, and is enclosed herewith. In this sketch portions which are claimed by Mysore, and which have been included in the village maps on both sides, are shown coloured blue, and the portions which have been left out of Madras maps, but which the Mysore officers say belong to Madras, and which have not been included in the map of Kondajji village, are shown in red.

4. The boundary stones used on the Madras side are shown square, while the "bandas" or stone cairns used by Mysore State, are shown as blue pencil circles. I went over the entire line involved and have satisfied myself that the survey marks shown exist on grounds. The Mysore bandas which consist of triple heaps of stones, have been verified by me and they have got every appearance of being very old.

5. What seems to have happened when the Madras boundary was surveyed is that these stones (bandas) have been overlooked, and lines taken from the easily identified boundary stones used by us. The area involved is a rocky stretch between two low hills, and the ground is littered with loose stones with the result that the Mysore Stone cairns appear to have been overlooked.

6. I have satisfied myself that the statement as to the boundary made by the Mysore officers is substantially accurate and that the boundary may be laid as shown by me in the plan by a double line drawn in red-pencil.

7. With regard to the alleged encroachment by one Lambadi Narayan, which is marked 'B' in the rough sketch sent along with the Board's Reference it was by means of cholam crop, and has already been removed by him. This man was present at the time of inspection, and produced no sort of title to the land in question, He belongs to a Thanda clase by and had encroached on this by mistake. The correct boundary has been pointed out to him and he has agreed to keep his cultivation within bounds. This point therefore need not concern us further.

8. The sketch received along with your reference quoted above is herewith resubmitted.

READ AGAIN: U.O. from the Asst. Director of Survey, Central Survey Office, dated 19.1.1943.

REFERENCE:

Submitted to the Government with reference to their Endorsement cited above.

2. The boundary line between Ragi Masalvada and Singarahalli villages

of Bellary district and Kondaji village of Mysore state may be revised in accordance with the Mysore Survey as marked in red pencil in the revise sketch, submitted by the Collector.

Asst Director

Survey - Frontier Boundary - Bellary Dist and Mysore State. Joint verification sketches.

From the Board of Revenue Agt. F. 1127/42-1 Dy 1.4.47

To Rr.

Please see the Bd's reference in the cf. and the two copies of the Joint verification sketches below.

2 In G.O. 166 Rev. Dated 12.2.43. Govt ordered the revision of a portion of the boundary between Rajmaodvada and Singanahalli villages of Bellary Dist and Mysore State. The Bd. has now submitted two copies of the Joint verification sketches of the boundary referred to above. In this connection attention is invited to the orders issued in G.O 729 Rev Dated 9.4.45. The two copies of the sketches may be signed by the Secy on behalf of this Govt. and sent to the Resident at Mysore. The Resident may be requested to ~~obtain the approval of the Mysore Govt., to the boundary as detailed in the sketches and~~ get the ratified by the Mysore Govt. copies signed ~~on behalf of the representative~~ of the Mysore Govt and return one of the copies to this Govt for record.

3 The draft letter to the Resident is for approval. The two copies of the Sketch may kindly be signed by the Secretary
